

Cree Edge™ Series

LED High Output High-Bay Luminaire Featuring Cree TrueWhite® Technology

Product Description

The Cree Edge™ High Output High-Bay luminaire is designed to deliver high lumen packages with precise optical control. Luminaire mounts directly to solid surface with galvanized steel mounting brackets and includes 6' (1.8m) cord for mounting to customer supplied junction box. Luminaire can also be mounted with pendant or hook & cord accessories listed below. Also available with Cree TrueWhite® Technology, the Cree Edge™ High Output High-Bay helps to beautifully render true colors and deliver value beyond savings in energy use.

Applications: Retail and industrial high bay, airport hangars, and gymnasiums

Performance Summary

Utilizes Cree TrueWhite® Technology on 5000K Luminaires

Patented NanoOptic® Product Technology

Made in the U.S.A. of U.S. and imported parts

CRI: Minimum 70 CRI (4000K & 5700K); 90 CRI (5000K)

CCT: 4000K (+/- 300K), 5000K (+/- 300K), 5700K (+/- 500K) Standard

Limited Warranty*: 10 years on luminaire/10 years on Colorfast DeltaGuard® finish

*See <http://lighting.cree.com/warranty> for warranty terms

Cree Edge™ High Output High-Bay Luminaire

Product Specifications

CREE TRUEWHITE® TECHNOLOGY

A revolutionary way to generate high-quality white light, Cree TrueWhite® Technology is a patented approach that delivers an exclusive combination of 90+ CRI, beautiful light characteristics, and lifelong color consistency, all while maintaining high luminous efficacy – a true no compromise solution.

CONSTRUCTION & MATERIALS

- Slim, low profile design
- Luminaire sides are rugged die cast aluminum with integral, weathertight LED driver compartments and high performance heat sinks
- Direct mount includes heavy gauge galvanized steel mounting brackets (non-painted) designed for direct mount to solid surfaces and includes a 6' (1.8m) cord for mounting to customer supplied junction box
- Pendant mount kit includes pendant hub and is intended to be mounted by 1-1/4 or 1-1/2 NPSM pendant (by others)
- Hook & cord mount kit includes two spring lock hooks
- Exclusive Colorfast DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable power topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Black, bronze, silver and white are available
- **Weight:** See weight and dimension charts on pages 1 and 2

ELECTRICAL SYSTEM

- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
 - **Power Factor:** > 0.9 at full load
 - **Total Harmonic Distortion:** < 20% at full load
 - To address inrush current, slow blow fuse or type C/D breaker should be used
 - **Operating Temperature Range:** -40°C - +45°C for 700mA luminaires; -40°C - +30°C for 1000mA luminaires
- WARNING:** Exceeding maximum operating temperature may result in thermal foldback

REGULATORY & VOLUNTARY QUALIFICATIONS

- cULus Listed
- Suitable for wet locations
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- RoHS compliant. Consult factory for details
- **CA RESIDENTS WARNING:** Cancer and Reproductive Harm – www.p65warnings.ca.gov

¹ Lumen maintenance values at 25°C are calculated per TM-21 based on LM-80 data and in-situ luminaire testing
² In accordance with IESNA TM-21-11, Projected Values represent interpolated value based on time durations that are within six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing (IDUT) i.e. the packaged LED chip. For 50K-100K hours above 35°C, refer to footnote 3
³ In accordance with IESNA TM-21-11, Calculated Values represent time durations that exceed six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing (IDUT) i.e. the packaged LED chip
