

LED LIGHTING THAT STANDS OUT IN A CROWD

Potential customers have many choices when it comes to stopping for fuel and convenience. At Cree, we understand how quality lighting can help lead those potential customers to your site. Our fixtures create inviting light and excellent visibility to help attract more customers, all while lowering your energy and maintenance bills.

ILLUMINATE YOUR BRAND

A customer's first impression is made from the road. By adopting Cree® LED lighting, you will not only put your facility and brand on display, but you'll also invite customers to your car wash or inside your C-store by creating a well-lit environment that is visually appealing.

MAXIMIZE THE BOTTOM LINE

Gas station operators are constantly looking for ways to minimize operating costs and attract new customers. Cree® LED lighting strikes this balance by combining product efficiency, performance and longevity with over 70 percent energy savings compared to traditional light sources.

ALL PATHS LEAD TO YOUR C-STORE

Cree indoor fixtures create inviting light and excellent visibility to help attract more customers. Once in the C-store, interior lighting with Cree TrueWhite® Technology will make your merchandise pop, so your refreshments look fresher, your appetizers more appetizing, and your C-store cleaner and more professional.

Petroleum

LOWER YOUR OPERATING EXPENSE.

Installing Cree® LED lighting offers lifetime financial benefits without sacrificing performance. Our targeted illumination delivers uniform, crisp white light while minimizing wasted energy to reduce light pollution and improve visibility. Cree® LED fixtures, backed by a 10-year limited warranty, offer energy-efficient and near maintenance-free lighting for your site, under your canopy and within your car wash and C-store — leading to a rapid payback and real long-term savings for you.
