

CREE UR SERIES LED UPGRADE KIT

The Simplest Way to Evolve to LED Lighting

Cree® UR Series LED Upgrade Kit

PROTECT YOUR INVESTMENT AND EXPERIENCE THE EFFICIENCY OF LED TECHNOLOGY

Update Fluorescent Lighting with Long-Lasting, Energy-Efficient LEDs.

Upgrade now to the UR Series to reap the benefits of consistent LED light, lower operating cost and worry-free maintenance for up to 7 years.

Improve the look and return on investment of existing fixtures with Cree LED Lighting technology.

The UR Series LED Upgrade Kit is packaged to convert a typical 2' or 4' troffer to LED lighting. The kit delivers 80 CRI light while achieving up to 102 lumens per watt. This innovative kit is designed to easily retrofit existing linear fluorescent fixtures to energy-saving LED. The UR Series is available in neutral or cool color temperatures and includes step dimming capabilities. Its cost-effective lightweight design and efficacy make the UR Series a fit for almost all applications where payback, price and quality are critical.

Lightbars with Driver

PERFORMANCE SUMMARY & KIT CONTENTS

Efficacy: Up to 102 LPW at source level

Delivered System Light Output: 3600 lumens / 4500 lumens

Input Power: 36 watts / 44 watts

CRI: >80

CCT: 3500K, 4000K

Input Voltage: 120-277 VAC

Limited Warranty: 7 years

Lifetime: Designed to last 50,000 hours

UR2-24™ / UR3-24™*

- (2 or 3) 2' Lightbars
- (1) LED Driver
- (4) or (6) Mounting Clips
- (8) or (12) Self-Tapping Screws
- (1) Installation Instructions
- (1) UL1598C Certification Label

UR2-48™ / UR3-48™*

- (2 or 3) 4' Lightbars
- (1) LED Driver
- (6) or (9) Mounting Clips
- (8) or (12) Self-Tapping Screws
- (1) Installation Instructions
- (1) UL1598C Certification Label

MAXIMIZE ROI WITH A SIMPLE RETROFIT

Simple Installation

The kit is equipped with simple magnetic clips to enable the installer to properly locate and secure the lightbars with self tapping screws to meet UL compliance. Additionally, quick-connects are utilized for the power connection to provide fast, error-proof connectivity.

Cree Proven Technology

The UR Series delivers up to 102 LPW of appealing LED light to produce a look equivalent to that of fluorescent lamps but at nearly 25% saving.*

**When compared to a [2] Lamp F32T8 System at 59 Watts.*

UR2-24™ Lightbar

PROFIT

Code-Compliant

The UR Series is designed to meet typical IES footcandle requirements for office and commercial space.

Universal Fit

Upgrade a wide array of existing 2' and 4' fixtures from leading manufacturers. Even more impressive, the sleek design of the LED driver and lightbars enables placement in unique troffer designs such as parabolic, volumetric and surface-mount wraps.

Quick-Connector

Magnetic Mounting Clip
